Experience

Software Development Engineer - Intern, Yatra Online Ltd. Sep 2025 – Present

- Developed a secure CityMasterList REST API to fetch vendor details from the database based on API key validation internal backend automation tools for operations teams, including: One-click corporate automated SQL query generation Bulk data update utilities for large datasets These tools significantly reduced manual effort and improved operational turnaround time.
- Worked on the Expedia Scheduler system to handle and resolve booking-related cases received from Expedia by:
Analyzing and debugging booking discrepancies
Exploring and integrating with 6 interconnected microservices
Improving reliability of case resolution workflows.
- Designed and implemented “Manual Zero”, an internal service-charge management system from scratch:
Configured service charges at both source-code level and vendor level
Added multi-functional capabilities such as dynamic updates, validations, and admin-level controls
Ensured scalability and maintainability using clean backend architecture.
- Gained hands-on experience with Spring Boot, REST APIs, SQL, microservices architecture, production debugging, and enterprise-level backend systems in a real-world travel-tech environment.

Web Developer - Intern, G Mind Solutions July 2022 – August 2022

- Designed and developed responsive, user-friendly web interfaces using HTML, CSS, and JavaScript, including a complete Library Management System UI.
- Built and deployed a personal portfolio website to showcase projects, technical skills, and professional experience.

Education

Noida Institute of Engineering and Technology, Bachelor of Technology August 2021 – June 2025

- **Coursework:** Computer Science, Computer Networking, Computer Architecture, Data Structures and Algorithms, Operating Systems, etc

Sarswati Vidya Mandir Senior Secondary School, Intermediate April 2020 – April 2021

Projects

E-Commerce-Website

- Designed and developed a scalable multi-vendor e-commerce platform.
- Improved system efficiency, scalability, and response time.

Portfolio Website

- Developed and deployed a responsive portfolio website to showcase projects, technical skills, and professional experience with a clean and modern UI.

Technologies

Languages: Java, SQL, MongoDB

Technologies: Cloud, SpringBoot, Microservices

Certifications

MongoDB Associate Developer (Java)

Java Programming: Arrays, Lists, and Structured Data

Object Oriented Programming in Java
